Art Unit: 1712

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 1, 2 and 4-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Geck et al. and Mautner et al.

These rejections are based on the rationale of record. See paragraphs 7 and 11 of the previous office action. Since the basis for this obviousness rejection has been detailed, this will not be repeated.

In an effort to overcome the obviousness of the limitation added to claim 1 applicants rely upon the data found in the specification and supplied in applicants' response. This is not sufficient because these examples clearly are not representative of the breadth of the claims. While a clear and convincing showing of unexpected results must pertain to the full extent of the subject matter claimed, applicants are not required to test each and every species within the scope of the claims; rather, patentability is established by a showing of unexpected superiority for representative compounds within that scope. The very limited showings provided are not representative of the entire breadth of the claims. In addition, the unobviousness of a broader claimed range can, in certain instances, be proven by a narrower range of data, if one of ordinary skill in the art would have been able to ascertain a trend in the exemplified data which would allow him/her to reasonably extend the probative value thereof. It must be remembered, however, that the burden of demonstrating that a showing is reasonably commensurate rests with applicant, not the examiner. Applicants have not met this burden. As such this rejection is maintained, as it now applies to claim 1.

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140

Art Unit: 1712

F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 1, 2 and 4 to 16 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 18 to 25 of copending Application No. 10/501,467. Although the conflicting claims are not identical, they are not patentably distinct from each other because of reasons of record.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
